Education

Doctorate - Polyoxometalate based nanoelectronics
University of Southampton

Sept. 2020 - Nov. 2024

Masters - Advanced Spectroscopy in Chemistry
Université de Lille, Universität Leipzig, Uniwersytet Jagielloński w Krakowie

Sept. 2018 - June 2020

Bachelors - Chemistry
Université Libre de Bruxelles

Sept. 2015 - June 2018

Experience

The Future Photonics Hub, Co-Director

Sept. 2022 - Aug. 2024

- Coordinated successful community outreach events within budget and resource constraints
- Recruited and developed new training programs for junior demonstrators
- Awarded for "exceptional contribution to public engagement and outreach activities"

Flexible Nanoelectronics Lab, Public Engagement Specialist

Sept. 2022 - Aug. 2024

- Developed educational content on flexible electronics for broad public audiences
- Delivered presentations and demonstrations at conferences, schools, and community events

The Future Photonics Hub, Demonstrator

Sept. 2020 - Aug. 2022

- Engaged with over 700 visitors to explain photonics and related scientific concepts
- Led hands-on educational workshops for school groups
- Presented the team's work at the Interact 2022 conference

ASC Masters, Student Representative

Sept. 2018 - June 2020

- Represented student interests by speaking at welcome sessions for new cohorts
- Assisted international students with administrative tasks like visas, banking, and communication
- Served as a translator to facilitate support for diverse student needs
- Facilitated student networking through social events and retreats

COALA, Youth Activity Coordinator

Sept. 2015 - June 2018

- Created and led themed weekly summer camp programs for children

Skills

Technical: Python, Adobe Suite, Inkscape, Data Processing

Communication: Public speaking, Report Writing, Project Management

Languages: Bilingual (English/French), German (advanced), Japanese (basics)

Certifications: Youth Activity Leader
